

TCM Forklift Parts

TCM Forklift Parts - In the global industry of material handling, lift trucks play a major part for transporting industrial goods. Originally innovated as industrial vehicles in the 1930s in the U.S., forklifts gained popularity after WWII during the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machinery spread globally.

In nineteen forty nine, founded by Mr. N. Niwa, the original Toyo Carrier Manufacturing Company Limited, which was later named Toyo Umpanki Co, was established. Presently the company is simply referred to as TCM Corporation. Over the years, TCM lift trucks have become an international leader in forklift manufacturing and have built a solid reputation with the industry. TCM started constructing lift truck manufacturing sites outside of Japan in the 1980s and is presently engaged in lift truck manufacturer at three foreign factories in Europe, China and the United States.

TCM proudly manufactures many models of industrial forklifts with more than 50 years of accumulated technology and expertise, making their products recognized and used all around the world. Characterized by strong initiatives and energetic staff, TCM continues to look toward the future and intends to become a world-class leading company.
